Sub: Preparation of coffee table book/ atlas in connection with 36th IGC 2020-reg

Sir,

GSI has been earmarked as a nodal agency for organizing the forthcoming 36th IGC, which is scheduled to be held at New Delhi from 2nd to 8th March, 2020. To showcase GSI's capabilities and GSI's contribution in geosciences and reach out a varied geoscientific audience, during 36th International Geological Congress, DG, GSI in several meetings had advised GSI to bring out and release some publications like coffee table books, atlases etc.

During recently held VAQ meeting, Ministry of Mines had emphasized on increasing GSI's visibility in international platform through publications, promotional materials etc. The 36th IGC, considered as Olympic in Geoscience is a big opportunity to achieve this objective.

In view of above, DG GSI has accorded approval for preparation of Coffee table book and atlas in synch with theme of 36th IGC which is Geosciences: The Basic Science for a Sustainable Future.

The approved list of the themes for Coffee Table Book and Atlas, along with approved team members who would be preparing the documents is attached herewith (**Annexure-A**). A general guideline, and time schedule for preparation of coffee table Books and Atlas along with a general layout are attached herewith (**Annexure B and C**).

All the ADG/DDG, Regional and Mission Heads are requested to provide necessary infrastructure and administrative support to the teams for bringing out the volumes successfully within the time schedule.

This is issued in accordance with Director General, GSI.
