

College Students Visit Northern Region to Learn about GSI

The ADG & HoD, GSI, NR has taken an initiative to popularize geosciences in the public at large, particularly among young citizens who are pursuing study in undergraduate or postgraduate courses and are likely to be ambassador of modern developments in the field of science. This initiative is in pursuance of Theme-7 (Enhancing GSI's Visibility), Activity: Connect with Students.

In this context, a team of 15 students pursuing B.Ed. in M.D. College, Barabanki visited the Northern Region office of the GSI on 5th February 2019, as a part of their curriculum to study a scientific institute. The team was attended by Shri Bhrigu Shankar, Supdtg. Geologist who informed the students and accompanying teachers about history, foundation of GSI, core activities of GSI, mission wise differentiation of work and their target audience. The students were apprised about role the GSI plays in development of the nation and how a truly Pan-Indian presence of GSI reflects a truly national fabric. Subsequently, the visitors met and interacted with Shri Som Nath Chandel, ADG & HoD, NR and Dr. G.S. Tiwari, Director (PSS). Shri Chandel gelled well with the students and effectively brought out their inquisitive nature. The visitors asked a lot of question about GSI and role of geosciences in National Development. Dr. Tiwari inquired about their ambitions in life and shared some of his experience-earned skills about harvesting practices needed to succeed in life.

The students and their accompanying teaches profusely conveyed their satisfaction from this visit and expressed their desire to visit and learn from GSI in future.
