Sub.: Issues regarding RTS project

Dear Sir,

This is with reference to the ongoing RTS project at the sites pertaining to the Ministry of Mines. We would like to bring your kind attention to the problems being faced by the developers at the respective sites/offices. Also, even after numerous visits by our developers not a single PPA has been signed till date.

As per the guidelines of MNRE and terms & conditions of the NIT, the project needs to be completed by May 2019, however the execution part can only be started after the signing of PPA.

Thus, you are requested to kindly instruct the nodal officers of the respective departments along with the asset managers of the respective sites to sign the PPA on priority basis.
