RTD, SR, GSITI is organizing "Refresher Course on Ground Geophysics in Mineral Exploration" from 19/06/2019 to 02/07/2019 at FTC, Chitradurga, Karnataka and GSI TI Hyderabad.

The objective of the course is to impart field training in exploration geophysical techniques. The course has been designed for the officers of GSI, state DGM's and other organization engaged in mineral exploration.

The course content of the proposed program is as given below.

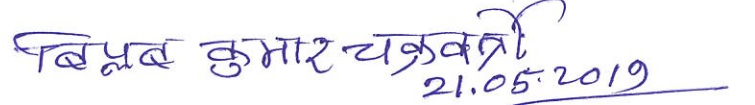

1. Basic concepts of Geology, field training in Geology to identify different rock units.
2. Basic principles of NGPM.
3. Fundamentals of Geophysical methods for mineral targeting like gravity, magnetic, IP, resistivity, MT prospecting, borehole geophysics and Mise-La-Masse surveys.
4. Field data collection with different geophysical instruments available in GSI
5. Preliminary data processing and data processing with computer aided techniques
6. Interpretation of ground geophysical data in conjunction with geology and geochemistry
7. Maps preparation, project work presentation and group discussions.

The Regional HoDs of GSI and competent authority of state DGM's and other organizations are requested kindly to nominate officers for participating in the training programme. **Geoscientists from both Geophysics and Geology streams of Southern Region may participate in the program as a part of promotion linked training.**
