STUDENTS PARTICIPATION AT GMS COLLEGE, JAMMU

**AWARENESS PROGRAMME AT GANDHI MEMORIAL SCIENCE COLLEGE,
JAMMU, J&K ON DATE 02.04.2019 UNDER BHUVISAMVAD PROGRAMME.**

A lecture on study of Topo-sheets and Maps and its significance was delivered by Dr. Harish Bahuguna, Director, GSI State Unit: Jammu and Kashmir under Bhumisamvad programme. Total 65 graduate students (BSc. I & II Year) and faculty members were present at the above programme. The presentation was followed by technical discussion. Initially, Dr. Chanchal Khajuria, HOD, Geology Department, Gandhi Memorial Science College, Jammu welcomed Dr. Harish Bahuguna to the department followed by lecture and technical interaction with students.

Dr. Harish Bahuguna, Director initiated the session with explaining how to take Dip & Strike and its significance in the geological mapping. He also presented the basic concept of Topo-sheets and base Maps and its utility in Geology. The students had shown their keen interest during the session and raised questions which were well explained by Dr. Harish Bahuguna, Director. The students appreciated the lecture, presentation style and expressed that it was a good learning opportunity for them.

After the lecture practical demonstration on Brunton compass and Topo-sheet reading was conducted by Dr. Harish Bahuguna, Director, Sh. Sanjay Jungral and Sh. Balbir Singh, Senior Geologists, for the students. Dr. Chanchal Khajuria, HOD expressed his sincere thanks to Dr. Bahuguna, Director and his colleagues from GSI. Dean Science Faculty Dr. S.P Sharma also called upon Dr. Bahuguna, Director and his team and expressed his gratitude to team GSI. Dean and Head of Geology department desired that more such lectures, practical demonstrations and field excursion can be arranged by GSI.
